Cosmos Gold & Orbits

“Looking up from my
backyard- the cosmos!
In daylight or darkness,
it is wonderful.”

— *Sue Vandeleur*

Art has been a 'constant' in my life, in one form or another – from Life Drawing night classes at the National Gallery of Victoria in my teens, to helping to bring a Regional Gallery to life in Goulburn, then guiding at the Art Gallery of South Australia. Drawing, painting or printmaking at every opportunity of course.

My current work is concerned with 'making visible' our relationship with the universe, where light becomes colour and movement is constant and (mostly) orderly - ad infinitum.

This is a theme partially explored in my earlier 'Daughters' paintings - which include references to the sun and the moon and their over-arching impact on our lives.

The view of the cosmos from my backyard, is one which inspires my imagination, so keeping in mind Paul Klee's (1879-1940) famous statement that "Art does not reproduce the visible, rather, it makes visible" - that's what I'm endeavouring to do. The 'Cosmos' paintings have colour as brought to life by the sun, and movement, - a constant in space. With a nod to 'Orphism'.
